More than 1,300 libraries worldwide turn to Atlas solutions to exceed the expectations of their users.
We play nice together

Now there are even more reasons for ILLiad users to adopt Ares for e-reserves and Aeon for special collections management.

Save staff time with the synergy of workflow addons that work across all three Atlas products.

Improve research services by seamlessly processing ILL requests for special collections materials through ILLiad and Aeon in tandem.

Isn’t it nice to see our family of products playing nice together?

Interlibrary loan automation for the way you work

Empower library users with self-service ILL options

Library users can track the status of their requests every step of the way through the easy-to-use interface of ILLiad. Whether they are in the library, a remote library location or an office, users can monitor requests so they know when to expect delivery of needed items.

“Aeon gives us robust statistics about users and collections.”

“Aeon will reduce the appalling amount of paperwork associated with registering patrons and keeping track of collections used in Special Collections.”

“The ability to track who is using what materials provides valuable information for maintaining the security of the collections.”

“Aeon provides a chain of custody and the patron information we need to make data-driven decisions.”
